

NAVIGATE THE CLIMATE FINANCE WORLD WITH TAP – THE LOCAL CLIMATE ACTION INCUBATOR

The Transformative Actions Program (TAP) is a project pipeline and a project preparation facility developed by ICLEI and partners. It acts as an incubator that supports local and regional governments by catalyzing capital flows for low-to-no emission and climate-resilient development.

Through the TAP, local and regional governments may apply for support to develop transformative local infrastructure projects.

The TAP is designed to connect local climate actors, technical experts and financial institutions.
